

SADGURU **INDUSTRIES**

The Pursuit of Excellence

ABOUT COMPANY

Sadguru Industries was established in 1999 in the Industrial township of Ahmednagar City and has now acquired a well acknowledged name in manufacturing of Die Cast Components.

We serve a wide range of customers in diversified Industry sectors such as Electrical Motor, Pumps, Switchgear as well as Lighting Industries. We have supplied Die Cast Rotors extensively to various customers in Electrical Industries like Crompton Greaves, Mahindra Intratrade, Ador Welding Limited, Ralli Engineering Limited, Paras Pumps etc. over the years.

We deal with various grades of Aluminium such as EC Grade, LM6, ADC12 etc.

CORPORATE PHILOSOPHY

Vision –

By 2023, we would like to be a preferred supplier for Aluminum Pressure Die Cast Components and their assemblies for Electrical Sector & Lighting Sector with annual capacity of 1200MT.

Mission –

We, at Sadguru Industries, are committed to become a trustworthy player in Aluminum Pressure Die Cast Components and their assemblies such as Rotors, LED Housings, Motor Components for Electrical Sector & Lighting Sector.

We achieve it by modernization and continuous evolution in casting production technologies and following robust process mapping & stringent process controls to ensure Zero Test Bed Rejection at Customer End.

Purpose –

To create value for all our associates.

Core Values –

Strive for Excellence by continuous improvement in every smallest element of organization.

Can we still make it better?

Teamwork with a commitment towards common goal by Respecting & Valuing every team member and Leveraging his/her experience with Positive & Open Communication in organization's success.

Independence to Think, Express and Work ethically in the best interest of Organization in alignment of Organization's Vision.

Orient all the processes of organization to create maximum value for our customer.

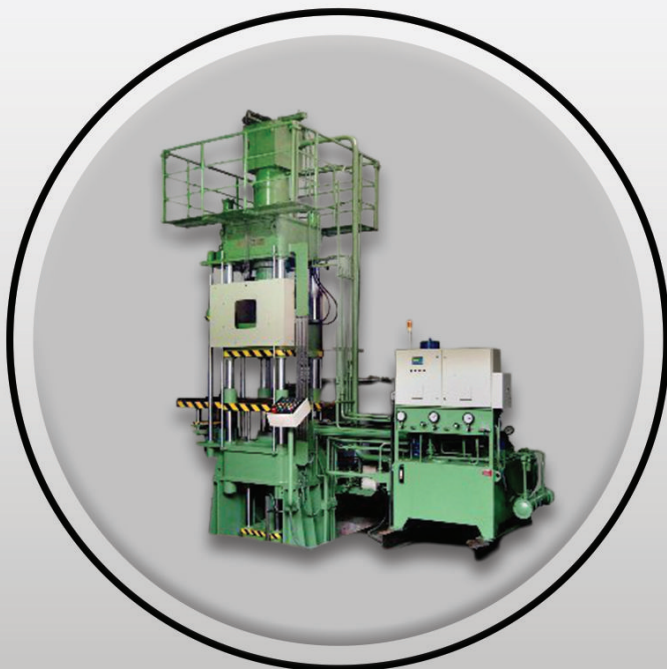

INFRASTRUCTURE FOR ROTOR DIE CASTING

Die Casting Facility -

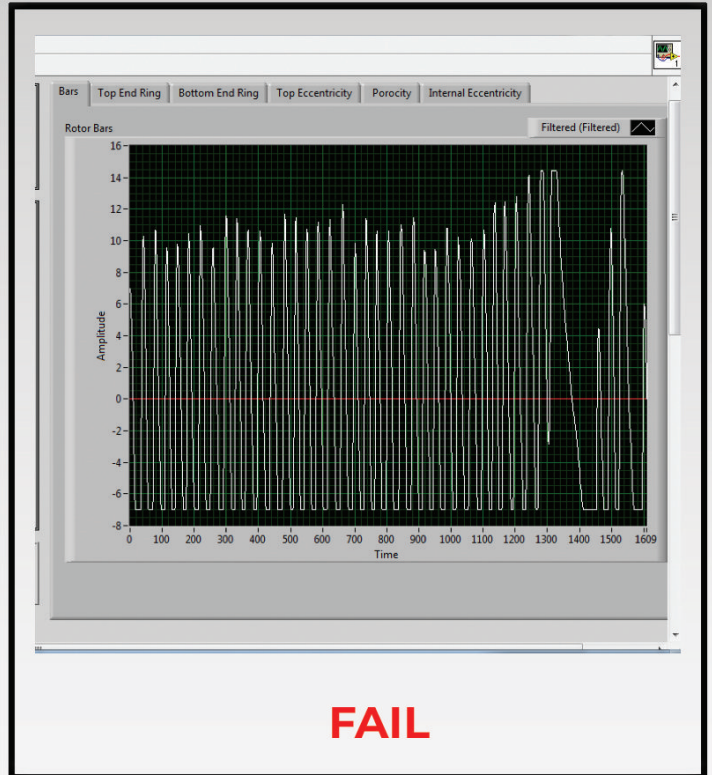

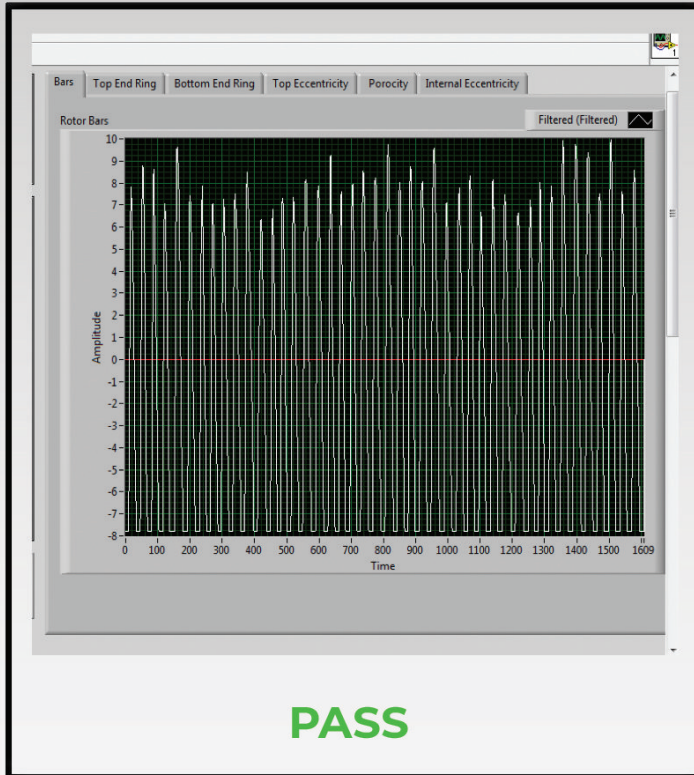

4 Nos of Vertical Pressure Die-Casting Machines by renowned manufacturers such as TCS, Daniels etc.

- Tonnage Capacity - 50MT to 150MT
- Aluminum Capacity in Rotor - 120gm to 11.6Kg

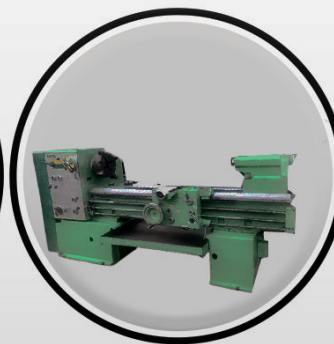

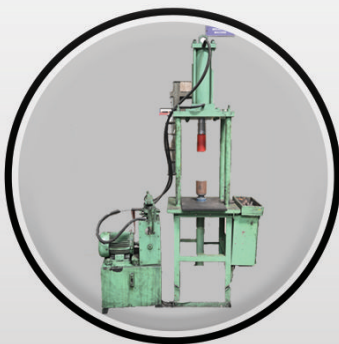

Testing Facility -

Rotor Test Bench for Various Rotor Die Casting Defects.

Value Added Facility After Rotor Die Casting –

Broaching Machine, Rotor Shaft Shrink Fitting, Rotor Turning Centre, Balancing Machine

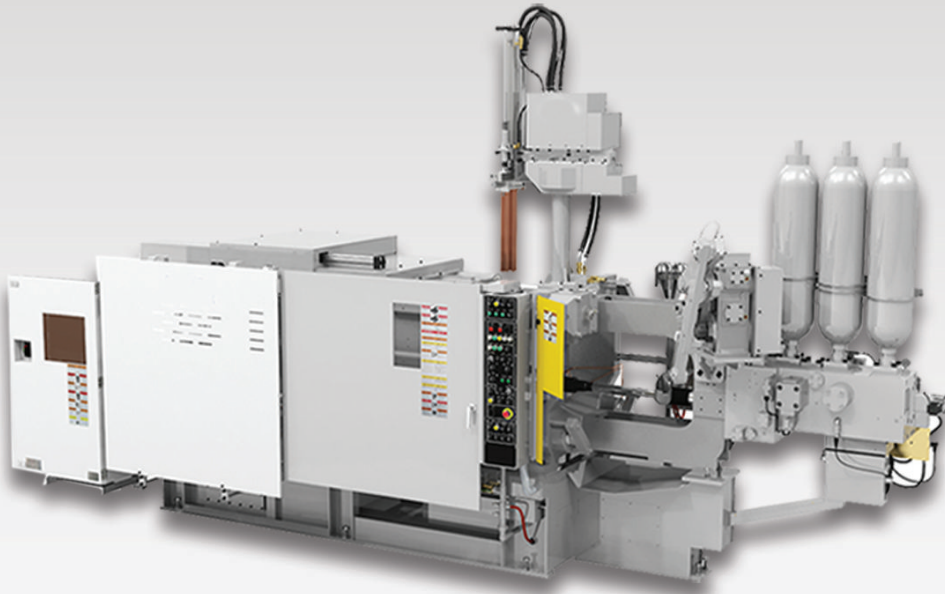

Infrastructure For Other Aluminium Die Cast Components

Die Casting Facility

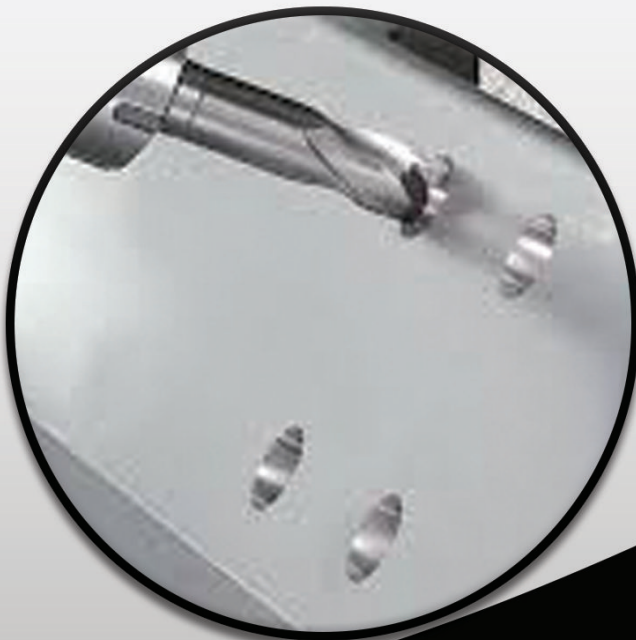

Tonnage Capacity – Upto 400MT

Aluminum Capacity in Component – Upto 4.2Kg

Allied Value-Added Facility After Die Casting

Machining, Powder Coating

Common Infrastructure

Forklift, Cooling Conveyor, Vertical Storage System
for RM & FG, ALL Basic Measurement Equipment

Products and Services

**Aluminum Die Cast Rotors for
Electrical Motors, Pumps, Ceiling Fan.**

Motor Terminal Box

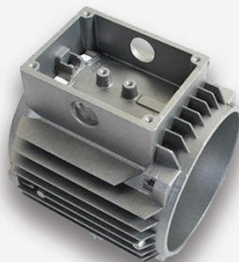

Street Light Housing

Flood Light Housing

Industrial High Bay Light Housing

Motor Housing

Motor End Shield

**Other Aluminium Die Cast Components
for Electrical Motors & Lighting Industries**

WHY WE

**What our customers
are looking for ?**

How do we achieve it ?

**All Time Full
Delivery with
Reduced Lead Time**

Flexibility in infrastructure with wide variety, range and volume.

Min 15% Spare Capacity all the time to accommodate fluctuations in requirements for existing customer

Processing time as fast as 24 Hrs

**Zero Test
Bed Rejection
for Customer**

Robust Process Mapping

Stringent Process Controls

In-house Test Bench
Facility for Rotor Testing

Vigorous QMS Implementation

**Design Support
during Development
and Operations**

Cross Functional & Application
Knowledge of Customer's Product

**Minimum Lead
time for Tool and
Die Development**

Allied dedicated Tool Room Facility
for Quick Die & Tool Development

Low MOQ

Lean Approach

Thorough Tool & Process Design

Continuous System
Improvement Approach

**One Stop
Shop for Customer**

Rotor Die Casting Facility
along with post operations such
as Broaching, Shaft Shrink Fitting,
Rotor Turning, Rotor Balancing etc.

Other Aluminum Die Cast
Components along with
Machining, Powder Coating
at Dedicated Allied Facility.

Industry Segment We Serve

Electrical Motor

Ceiling Fan

Electrical Pumps

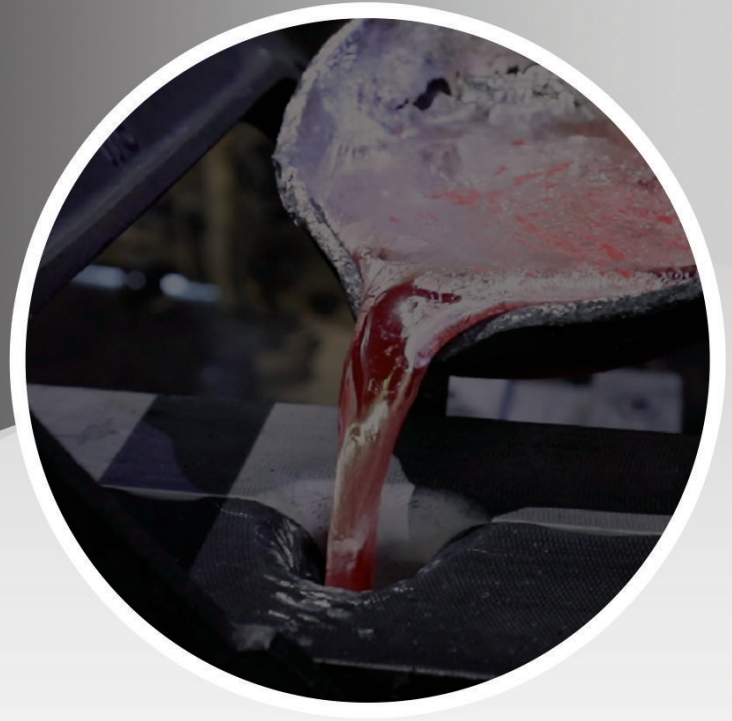

Lighting Industry

Our Key Customers

And Many More
